

In the first assessment you are expected to submit three things:

1) Design Document

- Your Design Document should draw on previous design documents you have created for games.
- Part of your job is to identify which sections of a Games Design Document are relevant to the current task.
- The document should look professional, and can include text and images as appropriate. Primarily, the design document should reflect all the decisions your group has made, and should describe in detail what you're going to do and how you're going to do it.

2) Presentation

- You should create a team presentation to showcase your ideas.
- This presentation could include ideas of style, look and feel, and theme as well as functionality.
- It should be informed by your design document, without simply being a Powerpoint representation of it.

3) Evidence of online collaboration

- The form of this will depend of your methods of communication but could include audio or video files, transcripts, output from online collaboration tools etc.

All of the above should be uploaded to Moodle on Sunday 28th October 2018, by 23:59. Your presentation should be delivered to your lecturer during the week beginning Monday 22nd October.

All members of the group are expected to participate in the presentation.

There are three ways to present:

1. In person, in class

- Each group will have the opportunity to present their design during their scheduled class on Monday 22nd October in Lanarkshire, or on Thursday 25th October in Dumfries and in Paisley.

2. In world

- Students can present their work in their own virtual world. It is the responsibility of each group to ensure that their lecturer knows that they wish to present in this way, and that they negotiate a suitable time to do this (probably on an evening as the University firewall could make communication difficult). It is advisable to have a trial run beforehand to eliminate as many problems as possible.

3. In world, in class

- Students who are having connection difficulties, but still want to present in world, can do so during their scheduled lab on Monday 22nd October in Lanarkshire, or on Thursday 25th October in Dumfries and in Paisley.
